

TESTIMONIALS

Kenny is a highly skilled Massage Therapist. He understands body mechanics and knows what muscles to treat to bring balance and pain relief to the body. He has helped me get back on track with my active lifestyle. I highly recommend Kenny and we are lucky to have such a qualified Massage Therapist in Kalispell.

Michele Binstock

Hey Hey Kenny, Shannon called me about 8:30 last evening to tell me how much she liked you and your work on her. She said she was feeling a lot better and was amazed that you could make such a difference for her in such a short time. I told her, as you had, that she might be a little sore tomorrow or the next day and that some of the problem MIGHT come back after a few days but not to worry about any of that and that it might take several appointments to really fix everything. I encouraged her to get back to you for another appointment within a week or so and I think she will. Bob's son, Jeff, (her boyfriend as you'll recall) was really pleased as well and had to get on the phone to let me know that he appreciated what you had done for her. Anyway, all-in-all, once again you have been OUTSTANDING!!!! Thanks for taking such good care of my friend.

Jim Ferguson

I can't compliment Kenny enough for his professionalism in his neuromuscular therapy practice. He has given me great relief in treatment of my neck pain. A couple of weeks ago, I also discovered he could treat my wrist & thumb joint which have developed arthritis due to an old break. I originally was sent to physical therapy for help with neck pain early in 2010, but received little relief. Now because of Kenny's expertise, I have full movement & little stiffness. I originally found out about Kenny through my husband, who said he did more for his back than all the doctors combined! Kenny's immense knowledge of all the muscles, nerves, tendons and trigger points bring a great measure of relief & healing for his patients. In addition, his experience in practice of neuromuscular therapy & massage over many years contributes greatly to his ability to help others. I highly recommend Kenny and feel confident now in going on the 10-day kayak trip this spring, as I have renewed strength in my wrist & less pain due to his massage treatments. Kenny's demeanor is of quiet concern, calming and also he is no-nonsense very exact and to the point in his therapy treatment. I intend to continue going to Kenny Klundt as need arises to maintain pain free life for neck & wrist.

Carol Larson

Kenny has helped me with recovering from a motor vehicle accident. I had tried chiropractic work, physical therapy and pain meds. None of those compared to the help I received from neuromuscular massage. My only regret is that I wished I had sought his help sooner. Not only did he relieve my pain in my neck and shoulders, but also he taught me about the trigger points that caused me pain. He is quite knowledgeable and eager to answer questions. I would recommend him if your looking for long term relief!

Kenny Klundt, CMT

Kenny is amazing. I've been going to him on and off for over 6 years. He has helped me through many rough times. He's magic, truly. I tell everyone about him. There is no other therapist like him. I've suffered from headaches, hip pain, back pain and tendonitis and he is the man to get you to the road to recovery. Magic.

I play the full contact sport of Roller Derby. I was referred to Kenny from a friend that has back troubles, when I started to have leg cramps and chronic muscular pain from playing Roller Derby. Kenny has helped alleviate my pain and has helped me to understand stretching and what muscle groups are causing my pain. I would refer him to anyone with deep muscle trauma and chronic pain; he is the best therapist that I have been to. I've sent several of my teammates to see him for various muscle issues and pain relief.

Outstanding!!! Ken is the best massage therapist I've ever used.... he's awesome! He really knows the human body and is excellent at providing a healing as well as relaxing, massage. He's very experienced with chronic pain and works to actually help me heal, not just feel good for the moment. Ken is a pleasant, no nonsense therapist, and I highly recommend that you give him a try.

Kenny Klundt is skilled in a variety of massage techniques for relaxation or for treating injuries. He combines the right amount of pressure with his knowledge of muscle groups and attachments to release muscle tension. Kenny's work has been extremely beneficial for giving me more flexibility to engage in a variety of sports such as tennis, yoga, hiking, and skiing. He also uses moist heating pads that feel wonderful, especially this time of the year.

Kenny has been a godsend in my life! I was in a car accident and got whiplash (side to side). The neurologist said I would never be the same. I couldn't turn my head from shoulder to shoulder, or look up at the stars. I went to physical therapy for 3 years and nothing!! A friend told me about Kenny and swore that he was the best. I made an appt. After 6 visits in 2 weeks, I couldn't get rid of my smile!! I went through 3 years of chronic pain and now I could turn my head and look up at the stars. Kenny has brought back a lot of outdoor activities I had to give up. He is a wonderful family man. He enjoys seeing his patients smile again. His goal is to heal you and get you back to the life you remember and love! He is worth trying and he is very professional. He will always be my friend and in my heart. Thank You Kenny!!!!!!

Simply the best! Kenny has helped me with some chronic overuse injuries such as hamstring and wrist tendinitis and has made a huge difference in my ability to function and be pain-free. His in-depth knowledge of anatomy and skill at applying pressure to just the right area to release muscle tension makes him the most effective massage therapist I have ever used. Thanks to him I've been able to get back to skiing, running, hiking, yoga, African drumming, needlework etc.!
